AKSHAT GUPTA

Business Analysis | Process Improvement | AI-Driven Automation

akshat242001@gmail.com | +91 8141046582 | Vadodara, Gujarat | LinkedIn

PROFESSIONAL SUMMARY

Business Analyst with 1+ years across banking, FMCG retail, and robotics, specializing in requirement gathering, BRD/FRD documentation, and AI/RAG-driven process automation. Delivered 15% revenue growth and cut AI-powered client outreach to under 60 seconds using SQL, Python, Excel, and Power BI. Seeking Business Analyst roles at the intersection of banking, fintech, and AI automation.

WORK EXPERIENCE

Axis Bank — Deputy Manager *June 2025 – August 2026*

Vadodara, Gujarat

- Managed a **200+ corporate portfolio** of Rs.21+ Cr across 4 branches — leading **3 Sales BDEs and 2 BROs** — delivering 15% revenue growth while ensuring KYC/AML and trade-finance compliance.
- Built **Excel and Power BI** dashboards tracking revenue, credit utilization, risk exposure, churn, and customer behavior, enabling faster, better-informed decisions by senior leadership.
- Mapped manual outreach process end-to-end and re-engineered it via a **RAG-based assistant**, cutting personalized client outreach time to under **60 seconds.**
- Streamlined MIS reporting using **Power Query** for data cleaning and **draw.io** flowcharts to align stakeholders on process changes.
- **Documented functional requirements** from digital, trade finance, and risk teams to translate client needs into workable solutions via Axis Bank's CRM.

GCMMF (AMUL) — Retail Performance Analytics, Intern *April 2024 – May 2024*

Anand, Gujarat

- Collected structured business data from **34 Amul Parlours** and designed interactive Power BI dashboards to monitor outlet performance.
- Enabled top management to monitor assortment strategy via **KPI benchmarks and draw.io flowcharts**, addressing gaps surfaced through market trend and competitor analysis.
- Recommended SKU expansion using pricing and demand analysis, contributing to a **12% increase in average basket size** and **16% sales growth**.
- Coordinated with franchise partners to resolve recurring operational issues (stock delays, order tracking) through data-backed solutions.

NRSC (ISRO) — Interactive Robot Development, Intern *January 2023 – May 2023*

Hyderabad, Telangana

- **Sole software owner** on a **4-person team** — architected and deployed the full autonomous robot stack from scratch (IR line-following, QR scan, TTS, voice queries, self-reset).
- Documented stakeholder needs as **BRD/FRD** specifications and delivered a fully self-tested robot stack, integrating Raspberry Pi, Arduino, sensors, and camera.

PROJECTS

Banking Churn Analytics Dashboard *Oct 2025 – Dec 2025*

- Built an **Excel analytics** engine to flag Rs. 15 Cr in high-risk assets via KYC tracking, with a churn model projecting up to 10% attrition risk reduction.
- Used **Lookups and Pivot Tables** to surface 45 low-penetration accounts across Rs. 10 Cr in assets, flagging a 12% cross-sell opportunity.

Portfolio Segmentation Model *April 2026 – May 2026*

- Segmented corporate portfolios into **three tiers** using manual K-Means clustering and Euclidean distance to identify product gaps and target revenue growth.
- Developed a custom **Excel and Power BI** based segmentation framework offering tiered credit, CMS, digital, and insurance recommendations while ensuring data privacy.

EDUCATION

T. A. Pai Management Institute (TAPMI) — Manipal, India *Jun 2023 – Apr 2025*

Master of Business Administration (MBA)- Marketing and Information Technology

BVM Engineering College — Vallabh Vidyanagar, India *Jul 2019 – Jun 2023*

Bachelor of Technology (B.Tech)- Electronics and Communication Engineering (GPA 8.72, Rank 3/150)
