Marketing Operations | Business Analytics | GTM Automation
Vadodara, Gujarat | akshat242001@gmail.com | +91 8141046582 | LinkedIn | Github

PROFESSIONAL SUMMARY

Revenue operations professional managing CRM architecture, lead qualification SLAs, and GTM reporting for a 200+ account B2B portfolio. Built Power BI dashboards that redirected coverage and grew revenue 15%, and automated account research from 60 minutes to under 60 seconds. Targeting marketing and revenue operations in B2B SaaS and fintech.

PROFESSIONAL EXPERIENCE

Axis Bank — Deputy Manager **Jun 2025 – Aug 2026**

Vadodara, Gujarat | 200+ account corporate portfolio, Rs. 21 Cr, 4 branches

- Grew **portfolio revenue 15%** by reallocating coverage toward high-value relationships and acquiring HNI accounts at Rs. 50L+ ticket size
- Led a **5-member team** of 3 Sales BDEs and 2 BROs through 15+ weekly client meetings, managing pipeline from sourced lead to account activation
- Designed lead qualification criteria and **SLA routing protocols**, holding a 24-hour response rate on newly sourced leads while owning CRM hygiene and deduplication standards
- Cut onboarding **TAT 15-20% at 90% first-time-right** by spearheading digital onboarding adoption and the CIB to NEO migration, coordinating with Operations, Digital and Compliance teams
- Built pipeline and portfolio dashboards in **Power BI with Power Query cleaning**, tracking stage conversion and turnaround to surface the coverage gaps behind reallocation decisions
- Spawned **12 pipeline conversions, by automating** outbound prospecting end to end, sourcing MCA-registered leads from Accumn.ai and drafting personalised emails mapped to each prospect's financial gaps

GCMMF (Amul) — Marketing & Retail Analytics Intern **Apr 2024 – May 2024**

Anand, Gujarat | 34-outlet field audit across distributor, wholesaler and retailer network

- Lifted **sales 16%** and **basket size 12%** by auditing assortment and merchandising gaps and issuing SKU-level corrections
- Presented outlet-performance dashboards and **post-audit growth KPIs** to senior management, driving new product introductions and availability fixes
- Traced retailer stockout and delivery complaints to an unmonitored manual order flow, recommending a **shift to the digital Amulkart** ordering platform

PROJECTS

- **GTM Account Intelligence & Outreach Automation** | *Make.com, OpenAI, Serper* — Cut account research from 60 minutes to under 60 seconds across 100+ target companies, generating 12-15 qualified meeting opportunities through automated enrichment and outreach sequencing
- **Churn & Retention Analytics Dashboard** | *Power BI, Power Query, Excel* — Raised cross-sell 20% and reduced annual attrition 15% by scoring 1,00+ customer records across 5+ branches and flagging 50+ low-penetration accounts for targeted campaigns
- **Digital Adoption & Usage Dashboard** | *Product Analytics* — Defined 3 core KPIs with user stories and acceptance criteria for a 125-customer MVP, tracking DAU, MAU, retention and usage across 4 customer segments
- **Portfolio Segmentation Model** | *Python, K-Means* — Built a 3-tier account scoring model using K-Means clustering and Euclidean distance, surfacing product gaps and prioritising which segments to target
