PROFESSIONAL SUMMARY

Deputy Manager with 14 months of experience at Axis Bank, combining customer discovery, product analytics, technology, and stakeholder management. Uses Excel, Power BI, CRM data, and AI tools to identify customer pain points, uncover insights, prioritize improvements, and streamline processes. Hands-on experience across digital onboarding, platform migration, product adoption, and transformation, working with technology, operations, and compliance teams from problem identification through implementation. Creates impact through improved digital journeys, stronger product adoption, data-driven decisions, and AI-enabled automation.

WORK EXPERIENCE

Axis Bank — Deputy Manager, Commercial Banking Jun 2025 – Aug 2026
Vadodara, Gujarat

- **Spearheaded requirement gathering** across **200+ corporate customers** (15+ interactions a week) and internal Sales and Operations teams to identify product friction, while leading a team of 5 across 4 branches (Rs.21 Cr portfolio)
- Translated requirements into a **PRD, user stories, acceptance criteria and KPIs** for migrating **125 corporate customers** to the bank's new digital-banking platform; delivered executive presentations to AVP/SVP leadership and Product teams
- Applied **market research and segmentation** (intent, account balance, usage) to prioritise the migration and match customers to the right current-account variant; analysed usage trends to recommend cross-sell and retention actions
- Partnered with Product, Tech and Operations on the bank's new paperless onboarding platform; pinpointed a gap in document guidance and proposed **stage-wise in-app prompts**, rolled out in a later release
- Orchestrated training for sales and branch teams across 4 branches on KYC, AML, current-account variants and the onboarding platform; reached **100% digital onboarding**, **~90% first-time-right** submissions and **15–20% faster turnaround**
- Built **two AI tools** for prospect research and policy lookup, reducing manual research from **~60 minutes to under 60 seconds**

GCMMF (Amul) — Intern, Retail Performance Analytics Apr 2024 – May 2024
Anand, Gujarat

- Audited **34 outlets** to uncover customer, operational and compliance gaps; converted findings into recommendations for digital ordering and assortment
- Created Excel and Power BI KPI dashboards for product-range analysis, contributing to **16% sales uplift**, **12% basket-size growth** and 77% resolution of flagged issues

NRSC (ISRO) — Intern, Interactive Robot Development Jan 2023 – May 2023
Hyderabad, Telangana

- Owned the **0-to-1 product lifecycle** for an autonomous exhibition robot; drove requirements, BRD/FRD, development, testing and prototype delivery in a 4-member team
- Integrated Raspberry Pi, Arduino, sensors, camera, QR scanning, TTS and NLP; added **content guardrails** and demonstrated the final product to NRSC leadership

PROJECTS

Customer Health and Adoption Dashboard | *Power BI, Power Query*

- Scoped the MVP, defined 3 core KPIs and developed a **Power BI dashboard** on bank MIS data tracking **DAU, MAU, churn risk** and upcoming KYC renewals across 4 customer segments to guide retention outreach

RAG-Based Banking Assistant | *LlamaIndex, Pinecone, LangChain, OpenAI, Twilio*

- Designed and deployed a **RAG assistant** on WhatsApp via Twilio (LlamaIndex retrieval, Pinecone vector search, LangChain orchestration) over public banking and regulatory documents, taking a **15–20 minute lookup** to near-instant answers

Agentic AI Outreach Automation | *Make.com, OpenAI, Serper*

- Automated prospect research and personalised outreach with an **agentic workflow** on Make.com, Serper and OpenAI; ran it across 100+ companies, generating **12–15 meeting opportunities**
